34 Kenniston House, Leighton Rd, London NW5 2UT | 07791 112982 | sununu@skhb.co.uk

## PROFESSIONAL SUMMARY

Experienced Maintenance Supervisor with over 20 years in commercial and live-use environments. Proven track record managing small engineering teams, delivering planned preventative maintenance programmes, and resolving reactive issues across multi-site portfolios. Skilled in electrical fault-finding, building fabric maintenance, and contractor coordination. Calm, professional, and experienced in client-facing settings where minimal disruption is essential.

## WORK HISTORY

### Maintenance Supervisor / Multi-Skilled Engineer

2019 – Present

*SKHB Construction Ltd — London*

Supervised and delivered planned and reactive maintenance across 15 commercial restaurant sites in central London, leading a small team of engineers and coordinating with external contractors.

- Managed a team of on-site tradespeople, allocating daily tasks, overseeing quality, and ensuring completion to standard
- Planned, scheduled, and delivered PPM programmes across multiple sites with accurate record-keeping and full work order closeout
- Carried out first-line electrical fault-finding and repairs: lighting systems, fixtures, distribution boards, and LV infrastructure
- Maintained HVAC extraction systems, mechanical plant, and kitchen ventilation units, escalating complex issues to specialists
- Oversaw building fabric maintenance: carpentry, tiling, flooring, plumbing, and decorating across diverse commercial environments
- Coordinated with managing agents, site managers, and external contractors to minimise disruption to live trading environments
- Responded to reactive callouts efficiently, diagnosing faults and delivering solutions under time pressure in client-facing settings
- Maintained comprehensive equipment logs, asset registers, and compliance documentation
- Operated calmly and professionally in front-of-house environments with a focus on occupant comfort and business continuity

### Immersive Technician

Feb 2023 – Aug 2025

*University College London — London*

Maintained technical infrastructure and studio environments within a multi-departmental university setting, supporting day-to-day operations.

- Responsible for operation, maintenance, and readiness of studio spaces and technical areas
- Maintained networked PCs and AV systems, ensuring reliability and system uptime
- Developed and implemented troubleshooting procedures, improving response times for technical issues
- Created and maintained comprehensive equipment inventories, asset records, and kit logs
- Liaised with Senior AV Technicians, Programme Director, and academic staff to meet technical requirements
- Worked across cross-departmental teams including Information Services Division
- Resolved technical issues efficiently, balancing quality with operational and economic considerations

### Founder / Technical Operations Lead

2018 – Present

*Kizim Production Ltd — London*

- Delivered over 50 commercial projects, managing end-to-end planning, budgeting, and execution
- Coordinated teams of up to 20 freelancers across production and technical roles
- Managed technical equipment assets valued at over £100,000
- Worked consistently in live, time-critical environments, meeting client deadlines without exception

### Technical Director

Nov 2014 – Present

*Skyedge 360 — London*

- Specialist data capture using LiDAR, 360° cameras, photogrammetry, and drone systems
- Produced 3D models, assemblies, and technical drawings using Fusion 360 and SketchUp
- Completed 200+ drone operations with full CAA compliance and zero safety incidents

### Production Engineer & Stage Technician

2006 – Nov 2014

*TG Productions — London*

- Delivered bespoke builds for live entertainment, interpreting creative briefs under tight deadlines
- Conducted risk assessments and managed fire/pyrotechnics systems during live performances
- Managed rigging systems, ensuring safety compliance and optimal performance conditions

## SKILLS

Electrical fault-finding & LV systems · HVAC and extraction · Plumbing · Carpentry & joinery · Flooring · Tiling · Welding & fabrication · Custom furniture

SketchUp · Fusion 360 · Twinmotion · AV systems · Windows platforms · Automated building systems

Team supervision · PPM scheduling · Work order management · Contractor coordination · Asset management · Budget control · Client communication

## CERTIFICATIONS

---

Furniture Production Level 2 — London Metropolitan University, 2007

EAL Level 2 Welding, Fabrication & Engineering — College of North West London, 2012

Electricity in the Entertainment Environment — Stage Electrics, 2013

National UAS Certificate (BNUC-S) — 2015

IPAF Powered Access Licence 3A+3B — Kingfisher Access, 2020

Virtual Production Masterclass — Barking & Dagenham College, 2022

## ADDITIONAL

---

Full UK Driving Licence with personal vehicle | Languages: English, Spanish (Native)
